

MINI-SAN

Marine Sewage Treatment System

Simple... and effective.

All Marine Solutions designs, manufactures, installs and services the Mini-San. This unique turnkey capability brings about the following benefits,

Clean Wall Design Rounded wall resists build up of scales and ensures waste is thoroughly treated and discharged.

Flexibility The touch control panel allows users to set chemical dosage, discharge time and chemical top up time. This means the Mini-San can be used in many different conditions.

Modular Mini-San can be installed with various holding tank sizes, and different level sensing features. Its chemical tank and dosing pump can also be located at different parts of the boat as required.

Reliability The control panel is the only electronics item. Accessibility to electronics is easy and environment contamination is isolated.

Space Saving Treatment chamber is integrated into holding tank.

User Friendly Mini-San comes with an easy to use touch control panel.

Compliance: Self certification Grade C
Treated Sewage in accordance
to Transport Operations (Marine
Pollution) Act and Regulation

Operation: Auto and manual modes
Adjustable chemical dosage
Adjustable discharge time
Adjustable chemical top up time

Power: 12/24 V DC

Chemical Tank: 7.5 L

Oxidizing agent: Pool Liquid Chlorine

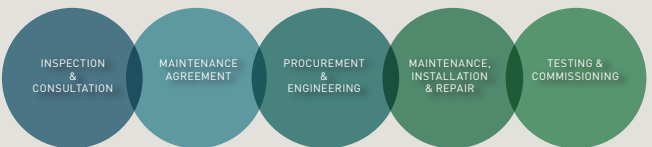

Tank

Construction: Polyethylene minimum
8 mm thick

Holding Tank Size: 65L – 400W x 600L x 500H mm
85L – 400W x 1200L x 400H mm
115L – 400W x 600L x 800H mm
125L – 400W x 1200L x 530H mm

Alarm: Visual and Audio
Low chemical
Low low chemical
Empty chemical
Holding tank full

The mini-San package comprises a holding tank,
float switch, chemical tank, dosing pump,
macerator pump and control panel.
