# A Truly One Stop For All Marine Service Needs

All Marine Solutions is a true turnkey service provider and offers the convenience of a quality "one-stop" service in all aspects of marine maintenance, installation and repair.

All Marine Solutions has been a leading service provider in **marine plumbing, water treatment, and bow & stern thruster installations.**

We are now also a leading service provider of high quality **fibreglass, gelcoat, timber and paint works.** This includes maintenance, repair, customisation, renovation, refurbishment and modification of fibreglass, timber work and decking.

Our operation at the Gold Coast City Marina comprises all of the necessary facilities and machineries to produce finished products of the highest quality.

*Customised carbon fibre dash*

Attention to details comes naturally as this is the foundation of our culture. We are built on a platform of highly passionate technicians and craftsmen who are proud of their workmanship. We will relentlessly ensure jobs are done to the highest quality, delivering the highest levels of one-on-one customer service.

This unique culture has placed All Marine Solutions in a very strong position to offer the convenience of a quality and genuine "one-stop" service provider for all aspects of marine maintenance, installation and repair.
